

Monitoring visits and support for schools that require improvement in order to become good or outstanding

This document was archived on 28 August 2015.

This guidance sets out Ofsted's approach to supporting and challenging schools that are judged to require improvement at a section 5 inspection. It outlines the main activities that may be undertaken by Her Majesty's Inspectors (HMI) from the time that the school is judged to require improvement until it is reinspected under section 5 of the Education Act 2005. This revised guidance takes effect from 1 January 2014.

Reference no: 120319

The Office for Standards in Education, Children's Services and Skills (Ofsted) regulates and inspects to achieve excellence in the care of children and young people, and in education and skills for learners of all ages. It regulates and inspects childcare and children's social care, and inspects the Children and Family Court Advisory and Support Service (Cafcass), schools, colleges, initial teacher training, work-based learning and skills training, adult and community learning, and education and training in prisons and other secure establishments. It assesses council children's services, and inspects services for looked after children, safeguarding and child protection.

Introduction

1. This guidance sets out how Her Majesty's Inspectors (HMI) will monitor and support schools that were judged to require improvement at their most recent section 5 inspection. Schools that require improvement in order to become good or outstanding are not 'schools causing concern', as set out in the Education Act 2005.
2. Schools judged to require improvement, where leadership and management were also judged to require improvement, will receive an initial monitoring inspection visit, usually within four to twelve weeks of the publication of the inspection report. This monitoring inspection will be carried out under section 8 of the Education Act 2005 by an HMI. HMI will not normally be accompanied by another inspector on the inspection. Where leadership and management were judged to be good at the recent section 5 inspection, the school will not usually receive such a visit.
3. Following the initial monitoring inspection, HMI will recommend whether or not further monitoring and other activity should occur to encourage the school's improvement so that the school is judged good or outstanding at its next section 5 inspection. Where an HMI considers that a school is ready for inspection, s/he may recommend that the next section 5 inspection be brought forward.
4. Where a school that requires improvement has residential or boarding provision, the lead inspector should inform the Senior HMI responsible for the Welfare Inspection of Boarding Schools¹.
5. All monitoring inspections comply with the code of conduct for inspectors as set out in *The framework for school inspection*.² During the monitoring inspection, HMI will decide where to focus inspection activities and vary the way they work to reflect the circumstances of the school. Schools judged to require improvement are not obliged to prepare a separate action plan, but are expected to amend their existing plans to address the areas for improvement identified by the section 5 inspection.
6. Schools requiring improvement will be reinspected under section 5 of the Education Act 2005 usually no later than 24 months after the publication of the report of the inspection at which the school was judged to require improvement.³

¹ Further guidance for education and social care inspectors on conducting integrated monitoring inspections is available in *Conducting additional inspections of independent schools* (090060), Ofsted, 2012; www.ofsted.gov.uk/resources/090060.

² *The framework for school inspection*, Ofsted, 2014; www.ofsted.gov.uk/resources/120100.

³ Recently-appointed headteachers of schools judged to require improvements who may have concerns about the scheduling of their school's next section 5 inspection may write to the relevant Ofsted Regional Director to set out the context of their school's present position.

Before the inspection

Notification

7. HMI will telephone the school up to five days before the start of the monitoring inspection to ensure that members of the governing body and representatives of the local authority or other appropriate authority are available when the inspection takes place.
8. If the headteacher is unavailable, HMI should ask to speak to the next most senior member of staff and will seek to ensure that the headteacher will be in school on the day of the inspection. Once the inspection has been confirmed, HMI will inform the inspection service provider (ISP), who will send formal confirmation of the inspection to the school by email. During the initial telephone call, HMI will:
 - confirm the date of the inspection
 - make sure that the headteacher will be present on the day of the inspection
 - explain the purpose of the inspection and provide the opportunity to discuss any specific focus
 - confirm that the school is able to inform the governing body and the local authority/proprietor/sponsor (as relevant) that HMI will wish to speak to them, preferably during the inspection⁴
9. **Requests for a deferral** will be handled in accordance with Ofsted's policy about the deferral of inspections.⁵

During the inspection

Focus of the monitoring inspection

10. The monitoring inspection will focus on:
 - reviewing with the school how urgently and effectively it is acting on the key areas for improvement identified at the most recent section 5 inspection
 - examining with school leaders and governors whether the fundamental actions needed to improve the school – for example, in relation to leadership, the quality of teaching, management of teachers' performance, and governance – are being taken (pupils are unlikely to be served well by a school that has focused on peripheral matters, or only on planning, rather than directly on the core issues that need tackling before the school can be good or outstanding)

⁴ HMI may need to explain that the monitoring inspection visit is being carried out under section 8 of the Education Act 2005.

⁵ *Deferral of inspections: information for schools*, Ofsted, 2010;
www.ofsted.gov.uk/resources/deferral-of-inspections-information-for-schools.

- identifying with the school any barriers to progress towards becoming a good or outstanding school
 - reviewing the impact of any external support on the school's improvement
 - where an external review of governance and/or use of the pupil premium was recommended at the section 5 inspection, identifying how urgently it has been commissioned and, if it has taken place, reviewing its impact⁶
 - determining the nature and timing of further activity by HMI to support improvement (see paragraphs 23 – 27)
 - where applicable, recommending whether or not the school is ready for a section 5 inspection.
11. At the monitoring inspection, HMI will make a single overarching judgement stating whether:
- *Senior leaders and governors/responsible authority/proprietor/sponsor are taking effective action to tackle the areas requiring improvement identified at the recent section 5 inspection; or*
 - *Senior leaders and governors/responsible authority/proprietor/sponsor are not taking effective action to tackle the areas requiring improvement identified at the last section 5 inspection.*

Monitoring inspection activities

12. On arrival at the school, HMI will show their identity badge and ask to see the headteacher. The headteacher should be advised that they may phone the National Business Unit (telephone: 0300 123 4234) to check on the identity of the inspector if they wish to do so.
13. During the inspection HMI may:
- meet with the headteacher and other senior leaders to establish a working relationship and focus on the actions taken so far to tackle issues stemming from the section 5 inspection; HMI may undertake observation or other enquiries to follow up the effect of the actions; while they will consider the progress made in implementing the plan and the impact of actions, HMI are not visiting simply to evaluate action plans, but to challenge and support the school so that any necessary changes in approaches to leadership, teaching and governance occur.

⁶ The DfE guidance on pupil premium reviews, to which schools for which one is recommended are directed (<https://www.gov.uk/pupil-premium-reviews>) in the covering letter sent with the final section 5 inspection report, includes 'You should start the process of commissioning a review within 2 weeks of it being recommended and should aim to have the review completed within 8 weeks.'

- hold meetings with representatives of the local authority/proprietor/sponsor, and the Chair and members of the governing body, to establish what action is being taken, including the progress and impact of any review of governance and/or the school's use of the pupil premium
 - gather any other evidence needed, which may include discussions with staff and pupils, observation of the school at work, records of teacher performance, planning and assessment, observations, work scrutiny and minutes of governing body meetings
 - ask the school to encourage parents and carers to use Parent View to contribute/record their views about the school.
 - discuss with the headteacher the next steps, including any possible further monitoring inspections or other improvement activity
 - plan time to reflect, draft the monitoring letter and consider what, if any, further challenge or support is required
 - hold a feedback meeting with key stakeholders, including as many governors as possible; where HMI have serious concerns about the lack of urgency with which weaknesses are being tackled, they will expect to speak to the full governing body. If needed, they will make arrangements to do so after the inspection.
14. Where HMI have concerns about the school, its leadership and management, its governance or the lack of urgency with which weaknesses are being tackled, these will be identified clearly and specific recommendations relating to these concerns will be made by HMI.
15. Where a monitoring inspection identifies serious concerns about aspects of the school's performance, including the safeguarding of pupils, that were not identified in the previous section 5 inspection or in any earlier monitoring visits, these will be reported to Ofsted and may lead to the next section 5 inspection being brought forward.

After the inspection

Reporting on the monitoring inspection

16. The content of the letter written at the end of the monitoring inspection will include:
- the date of the inspection and whether it was a first, or subsequent, inspection
 - a summary of the type of evidence gathered during the inspection and the context of the school
 - the judgement on whether the areas for improvement identified at the section 5 inspection are being effectively tackled

- the relevance, urgency and any early impact of the work being done to improve the school since the recent inspection, with particular reference to the inspection findings and including, in all cases, the improvement of teaching and learning and the efficacy of school leadership and governance
- the suitability of the school's plans to tackle the areas requiring improvement identified at the recent inspection and any recommendations from a previous monitoring inspection
- the timeliness and impact of any external review of governance and/or use of the pupil premium that was recommended at the section 5 inspection
- the quality and impact of any external support, and whether or not this is being brokered effectively
- any additional priorities for improvement.

17. The arrangements for writing the monitoring inspection letter are as follows.

- HMI will complete the letter towards the end of the monitoring inspection day. This will be sent to the appropriate inspection service provider (ISP) within three days of the monitoring inspection taking place.
- HMI is responsible for the quality and accuracy of the letter.
- Within 10 days of the end of the inspection, the ISP will prepare the final version of the letter for publication, which will be submitted to Ofsted through the data exchange and sent to the headteacher and copied (as appropriate) to:
 - the appropriate authority (e.g. Chair of the governing body/interim executive board)
 - the local authority (including where the school is an academy)
 - contractor providing support services on behalf of the local authority - where appropriate
 - the Diocese (for voluntary aided and voluntary controlled schools)
 - the Education Funding Agency (EFA) if the school has a sixth form
 - the person or body responsible for appointing foundation governors, if the school has a foundation
 - DfE - Academies Advisers Unit – for academies.

18. Ofsted will publish this letter on its website within 15 days of the end of the monitoring inspection.

Inspection evidence

19. HMI must retain copies of inspection evidence until the school is reinspected under section 5 of the Education Act 2005, in line with Ofsted's information assurance policy and procedures.

20. Inspection evidence gathered during a monitoring inspection will not normally be used as part of the evidence for the subsequent section 5 inspection. However, where a section 5 inspection is carried out because of serious concerns raised during a monitoring inspection about the quality of education provided, HMI may use the evidence gathered during the inspection. In such a case, the extent of any use will be made clear to those responsible for leading the school.

Conducting subsequent monitoring inspections

21. Generally, schools judged to require improvement will be unlikely to receive more than one monitoring inspection. However, where a further monitoring inspection is considered necessary, for example because the initial monitoring inspection judged that the school was not taking effective action to address the areas for improvement, this will take place after a suitable interval and before the next section 5 inspection.
22. Inspection activities will likely concentrate on the priorities for improvement identified at the initial monitoring inspection. HMI should identify additional priorities **only where they are essential** to the school's further development.

Further challenge and support

Ofsted's general duty to promote improvement

23. Ofsted has a range of duties under s117 (1) Education and Inspections Act 2006. One of these is to perform its functions for the general purpose of encouraging improvement in the services it inspects and regulates. Inspection and regulation are the principal ways of identifying strengths and weaknesses in the quality of provision and promoting improvement. However, additional monitoring and support are being introduced for those schools that require improvement.
24. HMI will carry out an initial monitoring inspection of schools that require improvement and where leadership and management are neither good nor outstanding, to provide support and challenge in making the progress necessary to be judged good or outstanding at their next section 5 inspection.
25. The arrangements for the monitoring inspections are set out in the guidance above. A key element of these inspections is the careful consideration of what further measures are needed to help the school improve, including initiatives led or arranged by HMI.
26. HMI may make further monitoring inspection visits to the school⁷ if they have concerns about the rate at which the school is improving. Such inspections will

⁷ Under section 8 of the Education Act 2005

result in published letters. HMI may also visit the school to assist in its improvement⁸, in which circumstances, any letter is not published.

27. During the monitoring inspection, HMI will consider what further actions are needed to ensure that the school makes the progress necessary for it to be judged at least good at its next section 5 inspection. In some circumstances, for example, where HMI and the school agree that the school would benefit from substantial involvement of Ofsted staff, HMI will discuss next steps and further actions with senior managers at Ofsted before confirming these to the school.

⁸ Under section 117(1) of the Education and Inspections Act 2006
